Aid Local Garden Club, Buy Orchid Show Tickets Here

If you want to grow orchids in the modern way, be sure to attend the South Florida Orchid Society's 11th International Orchid Show which opens Friday at 3 p.m. in Bayfront Municipal Auditorium in Miami. Show hours will be from 10:00 a.m. until 10:00 p.m. on Saturday, Sunday and Monday.

Mr. Holton Cole, general chairman of the show states, "Orchid growing is no longer a mysterious ritual. A member of the family can learn it as a hobby doesn't have to absent himself from the family circle and conduct strange rites in a secret garden house apart from the family." Cole adds.

The show is exploiting the best ideas, developed by those who are turning orchids into living decorations, and so many women visitors that they should be able to tell you 24 hours in advance whether or not you're going to be soaked, chilled or singed by the up-to-the-minute weather. We've had to wait until it happened...unless the weather man had an off day and guessed right.

The latest thing in the weather department is a huge electronic machine that does everything except buckle your galoshes for you. This new mechanical brain can absorb and analyze so many weather stations that it should be able to tell you whether you're going to be soaked, chilled or singed by the up-to-the-minute weather. We've had to wait until it happened...unless the weather man had an off day and guessed right.

The latest show will be run by a flock of government mathematicians and meteorologists, at a cost of \$100,000.00. We ought to get a lot of weather for that. Some fellows claim that you can start a rain storm just by pressing certain buttons like the old type weather forecasters did to us last year.

The latest boom to weight-conscious folk is a new dinner plate with a pie chart printed right on it. Somebody's always trying to talk the joy out of life! Keeping a diet doesn't do a good key to good health and another thought to keep in mind where health is concerned is our complete wealth. Come on, we'll give you everything in needed vitamins, biologicals and drugs. Visit the prescription store, GLADES DRUG STORE.

**Not a shift,
but a switch of the pitch**

**And man! What that does
for Dynaflow!**

This is for sure . . .

There's never been anything in your car-driving experience like the feel of Buick's new Variable Pitch Dynaflow — because there's never been anything like it in a car before.

In a modern plane, yes. For this is the principle of variable pitch propellers used on airplanes. Their propeller blades change "pitch" for quick take-off — then change to another "pitch" for better gas mileage in cruising aloft.

Now you can do the same thing on the ground — in a 1955 Buick.

Twenty propeller blades have been ingeniously engineered into the Dynaflow unit. They pivot — one way for a big boost in gas mileage while cruising — another way for brilliant new performance.

You switch the pitch for instantaneous

*Dynaflow Drive is standard on Roadmaster, optional at extra cost on other Series.

acceleration just by pressing the pedal way down. Then it happens . . .

A build-up of momentum as smooth as oil — and as quick as a split second. Dazzling new response on getaway — or a spectacular burst of instant safety-surge power when you need it out on a highway.

It's pure thrill — and a happy surprise in its far better gas mileage in cruising. Yet Variable Pitch Dynaflow costs not a penny more than earlier versions of this wonder drive.

How about you trying it?

That way you can also look into the sizzling new horsepower, the fresh new styling, the envied ever-level ride, the eye-opening low prices — all of which are making the 1955 Buick the hottest seller in all history. Come in this week, won't you?
